

Total Solar Eclipse Aug 21, 2017

Lincoln City Electric Vehicle Charging Stations

Lincoln City is excited to welcome large numbers of guests during the weekend leading up to and through the Monday solar solar eclipse. We hope you find your stay a safe and happy one.

We are pleased to say we have 4 charging station locations for those of you coming in your electric vehicles. To help you stay "filled up" we give you the station locations here.

It is expected that you will stay with your car while charging so you can easily leave and let the station be used by others.

-
- Carpool to Lincoln City, if possible.
 - Plan to arrive at least a day ahead and stay a day late to avoid most congested travel times.
 - Plan to walk whenever possible.
 - Watch from where you are staying, or nearby, if you can.
 - Avoid left turns onto or off of Hwy 101 except at signaled intersections.
